

TOWN OF BLACK MOUNTAIN BOARD OF ALDERMEN
REQUEST FOR BOARD ACTION
Meeting Date: March 14, 2011

SUBJECT: Stormwater Management in Black Mountain (PP Presentation)

AGENDA INFORMATION

Agenda Location: Communications from Staff
Item Number: 8-C
Department: Public Services Department
Planning & Development Services Department
Contact: Elizabeth Teague, Planning & Development Services Director
Mark Combs, Public Services Director
Presenter: Elizabeth Teague, Planning & Development Services Director
Mark Combs, Public Services Director

BRIEF SUMMARY: Public services and Planning and Development Services have prepared a presentation on stormwater management in order to get Board guidance on policies, priorities and responsibilities for short and long range program management.

MOTION FOR CONSIDERATION: N/A

FUNDING SOURCE: Variable depending on Board direction

ATTACHMENTS: PowerPoint presentation

MANAGER COMMENTS AND RECOMMENDATIONS: The included power point presentation illustrates stormwater management principles and practices that the Town has implemented under the Phase II Requirements (of the National Pollution Discharge Elimination System - NPDES). Under this program the Town is responsible for enacting local ordinances for new development and re-development, implementation of a stormwater plan that covers 6 minimum areas of activity, and maintenance of the stormwater system in the Town's limits. Staff seeks clear guidance regarding who should maintain existing stormwater infrastructure, and particularly state, public and private properties.

The scope of Town responsibilities as directed by the Board will require appropriate financial resources depending on the level of service directed. The 2009 Stormwater Master Plan indicated several infrastructure maintenance, replacement or improvement needs. Experience with public requests, indicates on-going challenges regarding who maintains what areas of the system and how best to those address needs.
