

## Black Mountain Business Recycling Guidelines (For businesses within Black Mountain town limits & currently receiving sanitation service by the Town)

Town recycling service is available to businesses that currently have Town trash pick-up (trash picked up with hand receptacles by GDS, not dumpster service.) Recycling service to businesses is limited to six blue bags or six 18-gallon recycling bins. Each bag or bin shall not exceed 50 pounds when filled. Materials accepted are the same as residential recycling.

Recycling is collected by GDS under contract with the Town of Black Mountain. GDS may refuse to collect any recyclables that contains materials that are not accepted by the recycling program, that does not meet guidelines, or is not in blue bags or 18 gallon recycling bins.

New businesses may pickup their first 18 gallon Town recycling bin free of charge at Town Hall. Additional bins are available for purchase at Town Hall. The current price is \$9.00. Neither the Town nor GDS are responsible for broken or stolen bins.

Items must be *clearly identifiable as recycling & prepared for easy & ready pick up.*

**CORRUGATED CARDBOARD** (clean)  
flattened & no larger than approximately 3' x 3'  
stack no higher than approximately 3'

**NEWSPAPER**
