Assistant Town Manager/Finance Director
Town of Black Mountain
160 Midland Avenue
Black Mountain, NC 28711

Dear Mr. Luebbe:

We are pleased to notify you that your 2018 fiscal year end comprehensive annual financial report (CAFR) qualifies for GFOA's Certificate of Achievement for Excellence in Financial Reporting. The Certificate of Achievement is the highest form of recognition in governmental accounting and financial reporting, and its attainment represents a significant accomplishment. Congratulations for having satisfied the high standards of the program. We hope that your example will encourage others in their efforts to achieve and maintain an appropriate standard of excellence in financial reporting.

A "Summary of Grading" form and a confidential list of comments and suggestions for possible improvements are enclosed. We want to strongly encourage the recommended improvements be made in the next report, and that the report be submitted to the program within six months of your next fiscal year end. Certificate of Achievement Program policy requires that written responses to the comments and suggestions for improvement accompany the next fiscal year's submission. The written responses should provide details about how each item is addressed within this report. These responses will be provided to those Special Review Committee members participating in the review. If a comment is unclear or there appears to be a discrepancy, please contact the Technical Services Center at (312) 977-9700 and ask to speak with a Certificate of Achievement Program in-house reviewer.

When a Certificate of Achievement for Excellence in Financial Reporting is awarded to a government, an Award of Financial Reporting Achievement (AFRA) is also presented to the individual(s) or department designated by the government as primarily responsible for its having earned the Certificate. An AFRA is enclosed for the preparer as designated on the application.

Continuing participants will find a brass medallion enclosed with these results. First-time recipients will receive a plaque in about 10 weeks. We hope that appropriate publicity will be given to this notable achievement. A sample news release has been enclosed.
A current holder of a Certificate of Achievement may include a reproduction of the Certificate in its immediately subsequent CAFR. A camera-ready copy of your Certificate is enclosed for that purpose. If you reproduce your Certificate in your next report, please refer to the enclosed instructions. A Certificate of Achievement is valid for a period of one year.

Over the course of the year, we are anticipating some changes to our application process. We will still be asking governments for the same documents we asked for in the past, but we are encouraging electronic submissions to cafrprogram@gfoa.org and expect to be making other changes going forward. We will keep members informed of any changes via email, and application instructions will be updated on our website.

Your continued interest in and support of the Certificate of Achievement Program is most appreciated. If we may be of any further assistance, please contact the Technical Services Center at (312) 977-9700.

Sincerely,

Michele Mark Levine
Director, Technical Services Center

SUBJECT: Budget Amendment for Golf Course Snack Shop Water Damage Repairs

AGENDA INFORMATION

Agenda Location: Consent Agenda
Item Number: 5C
Department: Finance
Contact: Dean Luebbe, Assistant Town Manager/Finance Director
Presenter: Josh Harrold, Town Manager

BRIEF SUMMARY: Water damage was discovered at the 19th Hole in the late summer of 2019. The areas involved are the Ladies Lounge interior (the lower portion of the building) and sections of the deck. Portions of the exterior of the lower level also need to be replaced, and the job is complicated because of the location of the electrical panel. In the fall of 2019, the Town made unsuccessful efforts to obtain acceptable estimates to repair these damages. On 12/19/2019, CRC Rebuilders submitted an estimate which the Town finds acceptable. Monies for this project will need to be transferred from the General Fund, as the Golf Fund currently has a deficit in fund balance.

MOTION FOR CONSIDERATION: To approve Budget Amendment #FY20-12 as submitted. In the Golf Fund, this budget amendment will increase the expense account, 5092-6310-730 (Capital Outlay) by $21,875 and the revenue account, 5092-3808-800 (Transfer from General Fund) for $21,875.

In the General Fund, this budget amendment will increase the expense account 1000-5000-560 (Transfer to Golf Fund) by $21,875 and the revenue account, 1000-3905-900 (Fund Balance Appropriated) by $21,875.

FUNDING SOURCE: Fund Balance from the General Fund.

ATTACHMENTS: Budget Amendment #FY20-12, and two quotes from CRC Rebuilders.

MANAGER’S COMMENTS AND RECOMMENDATIONS: Adopt as presented.

REQUEST FOR BOARD ACTION  
Meeting Date:  February 10, 2020

SUBJECT:  Budget Amendment for Additional funding for Comprehensive Plan  #FY20-13

AGENDA INFORMATION

Agenda Location:  Consent Agenda  
Item Number:  5D  
Department:  Finance  
Contact:  Dean Luebbe, Assistant Town Manager/Finance Director  
Presenter:  Josh Harrold, Town Manager

BRIEF SUMMARY:  A $10,000 increase is needed to expand the scope of the Comprehensive Plan. With the large turnout at our 1st public meeting, we realize more public input will be key to success of the plan. The Planning Department has been unable to hire a part time building inspector at this time, so the funding for this increase will come from the money budgeted for this position.

MOTION FOR CONSIDERATION:  To approve Budget Amendment #FY20-13 as submitted, increasing the line item 1010-5400-730 (Capital Outlay) by $10,000 and decreasing the line item 1010-5400-021 (Part Time Salaries) by $10,000.

FUNDING SOURCE:  Part Time Salaries in the Planning Department.

ATTACHMENTS:  Budget Amendment #FY20-13.

MANAGER’S COMMENTS AND RECOMMENDATIONS:  Adopt as presented.

BRIEF SUMMARY: Walker Ferguson, the owner of 1068 Old US 70 Hwy, has requested that their property located at 1068 Old US 70 Hwy be rezoned from OI-6 (office and institutional) to HB-8 (highway business). The property sits at the corner of Old US 70 Hwy and Tabernacle road and abuts and is adjacent to other highway business zoned properties. THE BLACK MOUNTAIN BOARD OF ALDERMEN held an agenda workshop on Thursday, January 9, 2020 at 5:00 p.m. in the board room of Town Hall, 160 Midland Avenue, Black Mountain, NC. The purpose of the meeting was to review the agenda for the regular monthly meeting scheduled for Monday, January 13, 2020 at 6:00 p.m.

1. CALL TO ORDER

Mayor Don Collins called the meeting to order at 5:00 p.m. with the following members present:

Mayor Don Collins
Vice Mayor Maggie Tuttle
Alderman Ryan Stone – absent
Alderman Larry Harris
Alderman Tim Raines
Alderman Carlos Showers – absent

The following staff members were present:

Josh Harrold, Town Manager
Angela Reece, Assistant to Manager/ Town Clerk
Shawn Freeman, Police Chief
Jessica Trotman, Planning Director
Joshua Henderson, Recreation Director
Jamey Matthews, Public Works Director

The Board reviewed the items that were proposed for the January 13, 2020 regular session meeting and made no changes.

Mayor Don Collins opened the meeting. Town Manager, Josh Harrold presented the proposed agenda to the Board of Aldermen. Deacon Bobby Stafford of Mills Chapel Baptist Church will give the invocation.

Manager Harrold discussed Item 5B, Call for Public Haring to REZONE portions of Flat Creek Road and Montreat Road from Suburban Residential (SR-2) to Town Residential (TR-4). Manager Harrold stated the Planning Board held a community meeting with owners in the proposed area and there was wide support for the TR-4 zoning district and said the Planning Board received the application at their December 16, 2020 meeting and voted 5 to 0 to recommend the rezoning to the Board of Aldermen.

Manager Harrold discussed Item 5D, Call for Public Haring to REZONE 1114 Montreat Road from Suburban Residential (SR-2) to Town Residential (TR-4). Manager Harrold stated this is the former Nana’s property and the rezoning would allow for more density.
Manager Harrold discussed Item 8C, Ordinance to adopt Title VI Plan stating this is necessary to seek out and obtain federal and state funding. The Title VI Plan provides for anti-discrimination policy and practices.

Manager Harrold discussed Item 8D, NC Highway 9 Sidewalk Construction Contract Approval stating staff has obtained bids to construct the sidewalk extending along Highway 9 in the area of Cheshire Village. Manager Harrold stated he has spoken with the developer, Sikes Regan, who stated he preferred the sidewalk be constructed out of brick pavers. Manager Harrold stated he requested bids for brick as well as traditional concrete and said the brick construction bids came in substantially more expensive at $65,000 more than the concrete construction for the lowest bid. Manager Harrold stated the figure appearing on the agenda of $125,240 reflects bid award for concrete construction. Manager Harrold stated he contacted Mr. Regan yesterday and spoke with him regarding an easement along this section and advised the Town may have to pay to obtain an easement for the concrete constructed sidewalk along this property. Manager Harrold stated there is a rock dust path there now that is being used as a walking path and advised the Board they had the option of skipping this area and continuing the project just north along Hyw 9 toward Christmount if the Board was unwilling to pay for an easement. Attorney Ron Sneed stated the Town has never purchased an easement for sidewalk construction and said usually property owners were willing to grant easements to have a sidewalk. Attorney Sneed stated there is no agreement at this point but said Mr. Regan wants brick construction materials and said the indication is there will be an exchange of grant of easement for those. Attorney Sneed stated he contacted Bob Long to discuss quick take condemnation and stated the statutes require compensation of the value of the land being taken or the detracted value of the property, whichever is greater. Attorney Sneed stated he feels the sidewalk would improve the value of the property so obviously the value of the land would need to be considered. Attorney Sneed stated the strip of land is about 10 -12 feet wide by 800-900 feet long. Attorney Sneed asked the Board if they wish to consider splitting the additional cost of the brick pavers ($32,500) in exchange for an easement as this may be more cost effective than pursuing condemnation and valuation of the portion of the land in question. Alderman Larry B. Harris stated he feels this project is for the good of the citizens to have a sidewalk extending along Highway 9 and said he had concerns that the Board would be setting a precedent if they began paying for easements. Alderman Harris stated he has concerns of doing for one what we cannot do for another. Attorney Sneed presented multiple options to the Board including skipping this portion of Highway 9 and continuing the project. Mayor Don Collins stated he supports continuing the project past the property if an easement is not granted. Board members conceded they do not wish to pay for an easement or the additional cost of brick. Public Works Director Jamey Matthews stated the cost of maintenance is much higher for brick than concrete. The Board left the item on the agenda for further discussion at the regular meeting.

Manager Harrold discussed Item 8E, Vance Ave. Traffic stating residents have requested additional stop signs at intersections of Vance Ave and Bridge Street and to make Vance Ave. and Terry Estate Drive a four way intersection. Manager Harrold stated Police Chief Freeman met with the residents and stated having additional stop signs will aid in traffic calming and reduction of speed in that area.

Manager Harrold discussed Item 9A, Public Hearing for Traffic Impact Analysis Ordinance #O-20-01 reminding the Board this item has went through the Planning Board and will set language
in place to require developers creating 798 or more trips per day on a Town road provide a traffic impact analysis to the Town. Manager Harrold stated a 75 unit project will cost a developer about $10,000 while a 300 unit project would cost the developer about $15,000.

There was no further discussion on the agenda.

*There being no further discussion, on a motion by Vice Mayor Maggie Tuttle, with a vote of 3-0 Mayor Don Collins adjourned the meeting at 5:20 p.m.*

THE BLACK MOUNTAIN BOARD OF ALDERMEN, held a special called meeting on Thursday January 9, 2020 at 5:30 p.m. in the board room of Town Hall, 160 Midland Avenue, Black Mountain NC. The purpose of this meeting was for the Board of Aldermen to review information regarding the Town’s Parking and Circulation Study.

1. CALL TO ORDER

Mayor Don Collins called the special meeting to order at 5:30 p.m. with the following members present:

Mayor Don Collins  
Vice Mayor Maggie Tuttle  
Alderman Larry Harris  
Alderman Carlos Showers - absent  
Alderman Ryan Stone – arrived at 5:40 p.m.  
Alderman Tim Raines

The following staff members were present:

Josh Harrold, Town Manager  
Angela Reece, Assistant to Manager/Town Clerk  
Ron Sneed, Town Attorney  
Dean Luebbe, Assistant Town Manager  
Shawn Freeman, Police Chief  
Jamey Matthews, Public Works Director  
Jessica Trotman, Planning Director  
Joshua Henderson, Recreation Director

Colin Kinton, PE of Traffic Planning and Design, Inc. presented the Parking and Circulation Study results to the Board of Aldermen. Mr. Kinton stated overall the parking supply is sufficient in the downtown area. He stated the perceived lack of convenient parking is an issue due to the lack of visibility of parking, not being able to see parking from the destination point. He stated the walking distance may be short but due to hills and intersection crossings they feel further away. Mr. Kinton stated on-street parking has the greatest demand, especially along, State, Cherry and Broadway Streets and said this type of parking has a much greater demand than off-street parking due to people wishing to park in front of the destination. Mr. Kinton stated he and staff performed traffic counts and said an average of 34 percent of available on-street parking is utilized as long term (greater than 4 hours) indicating the spaces are being used regularly by employees of businesses and business owners. Mr. Kinton stated moving long-term parking to
off-street lots would open up parking for almost 80 additional visitors/shoppers who would park two hours or less.

Mr. Kinton discussed the value of satellite parking lots such as the lot adjacent to the Sun Trust Bank across the railroad tracks. He stated pedestrians are the most vulnerable user of the roads and ensuring they have safe access and feel comfortable is critical to maximizing the utilization of satellite parking.

Mr. Kinton discussed congestion peaks during the lunch and late afternoon hours stating peak vehicle periods are relatively short in duration in the middle of the day and late afternoon. He stated assigning strategies that have the greatest benefit/cost such as coordinating signal timing, and improving parking identification and access would greatly benefit the circulation greatly downtown.

Mr. Kinton suggested making parking a Town program to consist of on-going programming, monitoring, master planning, meeting needs, annual budget, and capital planning. Mr. Kinton stated there is no one simple solution and said in the past parking has not been a programming priority. Mr. Kinton stated the solution will require a combination of strategies to address parking supply & use, safety, convenience, and comfort.

To do this a list of 10 items were suggested as follows:

1. Designate long-term parking for employees and business owners.
2. Develop parking wayfinding, mapping, awareness and educational materials.
3. Implement Cherry St. Cut-through pedestrian/bicycle path and Broadway Street high-visibility mid-block crossing.
4. Provide bicycle parking.
5. Interconnect and coordinate traffic signals.
6. Upgrade and improve State at Cherry St. and Church Street crossing.
7. Upgrade and improve Black Mountain Ave. at Sutton Ave. crossing.
8. Upgrade and improve Broadway Ave. at Sutton Ave. crossing.
9. Upgrade and improve State Street at Crammont Rd. crossing.
10. Implement time restrictions and enforcement of parking along Cherry Street and State Street.

Board members discussed funding mechanisms with Mr. Kinton who suggested seeking grant funding through the MPO (Metropolitan Planning Organization) as well as NC DOT. Planning Director Trotman confirmed the 2021 round of requests would be launched in the Fall of 2020 and said it would be a good time to request funding for smaller projects. Alderman Larry B. Harris inquired regarding approximate project costs in order to apply for funding matches and
Mr. Kinton stated he could work with Manager Harrold to formulate these numbers and report back to the Board at a later date.

There being no further business, on a motion made by Vice Mayor Maggie Tuttle and with a vote of 4-0, Mayor Don Collins adjourned the meeting at 6:07 p.m.

Benefits to restructuring of Police Staff:

Our proposed plan to restructure the Police Department will place more emphasis on community response in order to meet the increasing demands on police staff by providing more officers in the field, reduce police response times, and provide experienced command staff in the field. Restructuring would promote growth and retention within the police department. With the newly allocated officer position, BMPD would like to promote a Major/Assistant Chief; creating an opening for a Lieutenant. This Lieutenant along with the current remaining Lieutenant would oversee day to day field operations by moving to rotating shifts and supervising two squads each (i.e. A Lieutenant over A & B Squad and a Lieutenant over C & D Squad). All promotions would come from within and have already been budgeted into this year’s budget.

1. Restructuring of the Police Department places more personnel in the field -
   a. By creating the position of Major/Assistant Chief, all administrative duties would be placed on this position as well as overseeing police operations for the agency. The Major/Assistant Chief will work closely with and answer directly to the Chief of Police.
   b. Currently the police department works a twelve hour rotating shift schedule with four patrol squads (shifts) of three personnel. A Sergeant and two officers.
   c. Unforeseen circumstances such as being called to court, unplanned sick time and planned vacation times have routinely reduced that number to only two officers per shift. Only two officers per shift create potential safety issues for our staff and can increase response times for calls for service. Our community policing team, P.A.C.E., consists of two members and provides some assistance to patrol during high call volume times. By adding Lieutenants to the rotations we would have more officers on the road during the “high call volume times”, usually between the hours 2 pm to 2 am by adding the Lieutenants.
   d. Restructuring will increase the numbers of officers in the field by placing a seasoned, ranking Lieutenant, working during high call volume hours; i.e. 12p-12a, to oversee the day and night shifts. This allows our agency to potentially have five officers in the field and responding to calls for service during the busiest times. Ex;
      i. Dayshift, 6a-6p = 3 officers working
      ii. Lieutenant, 12p-12a = 1 officer
      iii. PACE officer, 2p-2a = 1 officer
      iv. Nightshift, 6p-6a = 3 officers working
c. With the addition of a Lieutenant to the rotations, if an officer is out for school or sick, the Lieutenant can alter their shift to maintain a 3 officer minimum coverage thus reducing the possibility of paying part-time staff or compensation time to staff.

2. **Restructuring places command level experience in the field** -
   a. Black Mountain Police Department is a relatively young agency.
   b. Restructuring will put an experienced Lieutenant working in the field with all shifts, this will allow coaching, mentoring and have command staff readily available at most all times.

3. **Restructuring allows for growth within the agency** -
   a. Restructuring the department will create opportunities for officer growth within BMPD that has not been previously available.
   b. Officers can plan for a lengthy career with promotional opportunities.
   c. This could reduce pay compaction issues within the police department.
   d. This organizational structure would allow for any potential future growth of the Police Department, both short term and long term.

4. **Retention** -
   a. Restructure allows for promotional opportunities and avenues for varied experiences such as; CID / Narcotics/ mid and executive level growth opportunities within the police department.
   b. Promotional opportunities have not have not been available in years past.
   c. Having promotional opportunities and ample personnel on shift should help reduce the turn-over by reducing workloads. While this restructuring will not alleviate all staffing issues, it is a first step.
   d. Reduce the cost associated with replacing officers lost to larger agencies because of heavy workloads or lack of promotional opportunities.
