NRPA PARK PULSE
Parks Are Essential, Especially During a Health Crisis

83% of adults find exercising at local parks, trails and open spaces essential to maintaining their mental and physical health during the COVID-19 pandemic.

- JOGGING
- WALKING
- HIKING
- BIKING

59% of respondents say it is very or extremely essential to exercise in parks and green spaces to relieve stress and remain healthy during this crisis.

Numerous studies show there are physical and mental health benefits to spending time in green spaces. Local parks, trails and open spaces have recently become even more of a respite from stress. In March 2020, NRPA released a joint statement about using parks and open spaces while maintaining physical distancing. To date, more than 1,000 groups nationwide have signed on to voice support of the safe use of parks during this crisis. Visit www.nrpa.org/Coronavirus for more information.

Each month through a poll of 1,000 U.S. residents focused on park and recreation issues, NRPA Park Pulse helps tell the park and recreation story. Questions span from the serious to the more lighthearted. The survey was conducted by Wakefield Research (www.wakefieldresearch.com).

3. CITIZEN COMMENTS

Town Manager Josh Harrold read the following comments

- Affordable housing is like the old weather adage, everyone talks about it but nobody does anything about it. Well unlike the weather situation, I feel Black Mountain has a unique opportunity at this time to do something about affordable housing. Right now there is an abandoned bldg within walking distance of downtown. This is the Bi Lo building on Rt 9.

(I do not know if the following is true but I feel I need to mention it. I have heard that Ingles bought the bldg and will not sell it to anyone who wants to put in another grocery store. If true that is definitely their right. But also if it is true than what better way to serve the community that they are headquartered in then to donate the property to Black Mountain as an affordable housing site. It would definitely benefit them three fold. 1 Great tax writeoff, 2 their customer base would be increased by the number of units built and 3 It would be good press. So enough of Ingles.)

If the previous paragraph is totally wrong this does not change the fact that the site could and should be purchased for housing. Since it is close to but remote from the old historic downtown bldgs and is surrounded by more modern structures like the UPS bldg and Starbucks and a gas station it could be a more modern structure. I picture an apt bldg like the one recently erected in Swannanoa.

So this is an opportunity that should be pursued in a timely manner. It won't be long before someone purchases this land for some other use. Thanks for listening

Ron Marcello

- My name is Theresa Fuller from 207 Rhododendron Ave. Thank you for providing this three minute forum for me to voice my concerns. Since 2016, I have presented my concerns about the conditions of Lake Tomahawk Park to the city and town manager. I invite you to review the supporting documentation accumulated. You will see a historical timeline, past newspaper articles, videos, and photos that may be of interest to you. The files are located on our Google drive. I have not been able to personally present to the board since the Covid-19 shutdown, March 2020. I was hoping to attend a meeting, but my letter and documentation will have to suffice. I am asking for your attention and support in putting proper money in the budget for this beloved park. For those new to Black Mountain, Lake Tomahawk Park provides our community a place to play, walk, swim, gather, commune, and relax within a 16.3-acre parcel located centrally in Black Mountain. Lake Tomahawk is fed by Tomahawk Branch, which runs through the Black Mountain golf course. This park was created by Civil Works Administration in the ’30s. The Lakeview Center was constructed around 1932 and semi-renovated in 1975 and 2010. Today, the center serves as an Active Aging Center. It hosts senior walks and lunches; offers programs ranging from exercise classes to bridge, and is rented for various private occasions. The park features amenities as a pavilion, fishing pier, playground, tennis courts, horseshoe pits, public restrooms, and a walking trail. The tennis courts were refurbished in 1989. The pavilion was built in 1993 and features ten picnic tables and one small charcoal grill. The Black Mountain Pool was completely renovated in 2009. We could talk for hours about really what has been done or is happening. In early 2020, Elevate Black Mountain meetings occurred. The general consensus is people want their greenways, especially Lake Tomahawk. As proof, daily and monthly loop counts were taken from an installed counter. Could some of these steps possibly be yours? The issue is maintenance projects are overlooked as Capital projects are worked as they are easier to get approved. This is a real problem in many communities. Before I voice my grievances, I give thanks to the City Works and the town Manager for work performed in 2020. The town did perform some of the work on the Lake Tomahawk community garden to stop erosion. More needs to be done. A large dead tree was removed for safety reasons. The sediment damn was re-engineered from the one that was destroyed in May of 2018. I ask you to please walk the park, or review the supporting document, with open eyes and observe what is happening to the park.

· Storm water is not being controlled off the mountain and hillsides. It washes down across Tomahawk Avenue and down the Lake Tomahawk banks. Review the video on just how badly Lake Tomahawk Ave slopes towards the lake. This is even becoming a danger for driving. Also, all the new
builds in the past five years have removed so many trees. This sends enormous amounts of uncontrolled water towards the lake. How do we control our environment from being destroyed? The current maintenance must be improved. When it rains, the trails are washed out and the gravel goes into the lake. The city puts fresh gravel on top of washed-out trail. It rains again and the city repeats. We have beaches of gravel and it is polluting filling the lake. Our lake is rapidly disappearing. Please review the lake’s 2019 depth measurement performed by Friends of Lake Tomahawk. You will see the deepest was 8’ two years ago. Have article where this was around 22’ at one time.

- In many spots, the trails have sunk approximately 6” in the past four years. People and the city backhoes are using the grass areas instead of the trails because they are underwater.
- Mowing needs to change. The grass is cut so short, it dies off what little grass we have in our park. All of this is resulting in a dying shallow lake.
- Observe some of the structures around the lake. The Kiwanis perform maintenance to their benches, but the other ten benches are old-looking and a lot of them are in erosion areas. One by the island is going to fall into the lake soon. The benches need to be moved and revitalized or replaced. We offered to work with the city to replace the wood on the benches staying in place and will replace the wood on those moved by the city to better locations.
- Please look at the gazebo. Did you know it was built and donated and had been used by weddings? Please take a look at it. It has graffiti, a bad roof, and the gravel from the trail is put at the entrance. I have had some donations and sales to contribute to replacing one of the beds along the trail. Will you please put money in the budget and plan for improvements?

- Brandon Moffitt, Executive Director/Founder of Black Mountain Academy Reasons for concern:
  1. Traffic often passes this intersection above the posted speed limit of 35mph.
  2. Pedestrian safety – pedestrians do not have clear right-of-way based on current crosswalk markings. I have observed numerous situations in which cars almost hit pedestrians including elderly and disabled citizens.
  3. Lack of visible signage, road markings, or crosswalk signals to ensure it this intersection is safe for pedestrians.
  4. Safe routes to school – we are a private school and NC law indicates that we should have safe walking access to and from our campus. Our staff and students regularly walk to Cragmont Park, Lake Tomahawk, the Library, and to town. We opened in 2016 and I have been unable to make progress on this request despite persistent attempts.
  5. An injury to one of our students or staff, or other community member is an avoidable tragedy. Specific requests for board consideration:
     1. Install bright pedestrian signage to raise awareness for drivers as they approach the intersection. This is a lower cost option that would signal cars, semi trucks, and tourists to slow down and pay closer attention. This is a first step to improving the safety of the intersection.
     2. Install a section of sidewalk on the south side of Hwy 70 (CVS / Black Mountain Academy side) of the street. Sidewalks on both sides of the Hwy 70 meet NCDOT requirements to further improve an intersection with signs, crosswalk stripes, and/or crosswalk signals. Public works developed a bid for this in 2019 but it stalled last year due to COVID and loss of tax revenue.

4. COMMUNICATIONS FROM STAFF, BOARDS, COMMISSIONS & AGENCIES

There was some discussion about the cost and the impact to the budget. Fire Chief Scottie Harris entered the meeting to address the council. Chief Harris expressed concerns about the staffing in his department. He noted that the department had recently responded to a house fire, and

THE BLACK MOUNTAIN TOWN COUNCIL held an agenda workshop on Thursday, March 4, 2021 at 5:00 p.m. in the board room of Town Hall, 160 Midland Avenue, Black Mountain, NC. The purpose of the meeting was to review the agenda for the regular monthly meeting scheduled for Monday, March 8, 2021 at 6:00 p.m.

1. CALL TO ORDER

Vice Mayor Ryan Stone called the meeting to order at 5:00 p.m. with the following members present:

- Mayor Larry B. Harris – absent
- Vice Mayor Ryan Stone
- Council Member Tim Raines
- Council Member Pam King
- Council Member Doug Hay

The following staff members were present:

- Josh Harrold, Town Manager
- Savannah Parrish, Assistant to Manager/ Town Clerk
- Ron Sneed, Town Attorney

Vice Mayor Ryan Stone opened the meeting. Town Manager, Josh Harrold presented the proposed agenda to the Town Council.

Manager Josh Harrold discussed item 8E, SAFER Grant. The Fire Department is requesting permission to apply for the SAFER Grant which would increase staffing and delay the impact to the town by putting the salaries on a graduated system. The Town would be completely responsible in four years.

Manager Harrold also briefly reviewed Items 8F and 8G.

He presented item 9A, Text Amendments Chapter 1, these definitions will help clear up confusion regarding residential uses. The proposed definitions will allow staff and applicants to clearly differentiate between residential and non-residential uses. The proposed definitions are consistent with NC General Statutes and were acquired from the American Planning Association’s Planner’s Dictionary.
There was no discussion from the Town Council on the agenda and no items were added.

Manager Harrold began the meeting by explaining how to calculate the revenue neutral number. The increase is 7.13% increase since the last property tax evaluations. The growth rate is also factored in, which would bring the tax rate for the Town of Black Mountain to 30.34 cents. The Town Council has the authority to set a different tax rate.

Manager Harrold presented the preliminary budget. Sales tax and property tax account for approximately 60% of the revenues. $10,410,609 is the estimated revenue amount for the Town at this point in time, and that number will become more refined as the budget process continues. Estimates on revenues will likely not be clarified until the end of March.

Manager Harrold expressed interest in using funds from the Powell Bill to pave streets next fiscal year. There is currently an excess amount from the Powell Bill in the budget because it has not been spent for several years. Going forward, the Town Manager would like to spend that money to help with the upkeep of streets, sidewalks, and other infrastructure.

Building permit revenue continues to increase and that trend is expected to continue in fiscal year 2020-21.
The Town Manager presented the preliminary budget for each department. The budget includes a cost of living increase of 2.5%.

Operating expenses in administration include a mini split for the IT room. This led to discussion concerning cyber security. Manager Harrold agreed that cyber security is very important to the overall security of the town and will assess the effectiveness of Black Mountain’s current practices.

The Planning Department will have an increase in budget for salaries as they are adding a stormwater clerk position, and cost of living. Stormwater compliance and supplies also lead to an increase in the Planning Department budget.

The Police Department budget included a new position which consolidates two, unfilled, part-time positions. Three additional officers were requested, but those positions are currently not included in the budget.

The Fire Department budget does not currently include new positions. Mayor Harris encouraged Fire Chief Harris to compare the Black Mountain Fire Department equipment and staffing to other, nearby fire districts in order to better ascertain the needs of the department. There was some discussion about how best to approach staffing issues within the fire department. Capital outlay includes the emergency signal for Montreat Road, high pressure rescue air bags, a boat replacement, and a vehicle for the assistant chief position.

Public Services Streets Capital outlay includes a vehicle lift and a Ford F150. Park Maintenance will include a fountain pump repair for Lake Tomahawk.

The Recreation, Grey Eagle, Lakeview, and Pool budgets were also presented. The capital outlay includes repairs to the tennis courts, and a van for the Recreation Department.

Council Member Pam King inquired about the budget for the community garden, and Manager Harrold explained that it is part of the recreation budget, which is reflected by the part-time staff line item.

There was no further discussion.

*There being no further business, Mayor Larry Harris adjourned the meeting at 9:26 a.m.*

SUBJECT: Call for Public Hearing for Voluntary Annexation for 201 and 207 Old toll Road

AGENDA INFORMATION

Presenter: Jessica Trotman, Planning Director

BRIEF SUMMARY: Brownie and Elizabeth Newman have purchased 201 and 207 Old Toll Road (PIN #’s: 0619-87-6495.00000 and 0619-87-7613.00000). The properties are located outside of city limits and the Newman’s would like to place additional structures on the properties and will need additional water from the Town so they are seeking voluntary annexation of these two parcels. The Planning Board heard this request at their November 23, 2020, meeting and all seven members felt that the property is comparable in size to adjacent parcels and would be a good fit to add into the Town.

MOTION FOR CONSIDERATION: To call for a public hearing for voluntary annexation for 201 and 207 Old Toll Road (PIN #’s: 0619-87-6495.00000 and 0619-87-7613.00000) to be held on Monday, May 10, 2021, at 6:00 p.m., or as soon thereafter as possible, in the Board Room of Town Hall, 160 Midland Avenue.

BRIEF SUMMARY: Brownie and Elizabeth Newman have purchased 201 and 207 Old Toll Road (PIN #'s: 0619-87-6495.00000 and 0619-87-7613.00000). The properties are located outside of city limits and the Newman’s would like to place additional structures on the properties and will need additional water from the Town so they are seeking voluntary annexation of the two parcels. The Newman’s would like the Town zoning designation of UR-8 (urban residential) if the property is annexed. The Planning Board heard this request at the regular meeting on March 22, 2021 and voted 7-0 to recommend the UR-8 zoning designation as the property is reasonably sized compared to adjacent parcels, will not have a negative impact to neighbors, is consistent with the comprehensive plan, and the uses in the proposed district are comparable to the uses surrounding the parcels.

MOTION FOR CONSIDERATION: To call for a public hearing for rezoning 201 and 207 Old Toll Road (PIN #’s: 0619-87-6495.00000 and 0619-87-7613.00000) to UR-8 to be held on Monday, May 10, 2021, at 6:00 p.m., or as soon thereafter as possible, in the Board Room of Town Hall, 160 Midland Avenue.

BRIEF SUMMARY: The proposed amendment increases the amount of open space requirements for major subdivisions. The Planning Board voted 7-0 to recommended the amendment at their March 22, 2021 meeting and determined that the amendment is consistent with the comprehensive plan because it calls for more open and greenspace and is reasonable and in the public interest because it incorporates concerns from citizens to have more greenspace in developments.

BRIEF SUMMARY: The Black Mountain Library Garden Proposal would offer growing space for gardeners that integrates art, education, conservation, and community while serving as an extension to the library. MANAGER’S COMMENTS AND RECOMMENDATIONS:
Black Mountain Library Garden Proposal
23rd March 2021

OVERVIEW/MISSION
To provide a beautiful growing space for gardeners that integrates art, education, conservation, and community while serving as an extension to the library.

MAIN GOALS
1. Serve the needs of gardeners currently on the Dr. John Wilson Community Garden, as well as the rest of the community and those that need raised beds due to physical limitations.
2. Grow community by providing a welcoming space for residence to grow, learn, and find inspiration.
3. Provide food and habitat for pollinators, while creating a beautiful space.

CORE GROWING TEAM
Lisa Stewart, Gardener
Jessica Meltz, Intern at the Dr. John Wilson Community Garden
Katherine Malsbary, Gardener
Laura Edmonds, Librarian
Kris Kramer, No Dig Gardener
Emily Mercer Sampson, Black Mountain Recreation and Parks
Judd Dougherty, Black Mountain Library Board
PROPOSAL

Pollinator Bed

Replace the grass oval in the center of the parking lot with a pollinator meadow. Emily Mercer Sampson from the Recreation and Parks Department can start solarizing the grass currently there this May, plant seeds in fall, and spring of 2021 we would see growth. Emily Mercer Sampson would fix the drainage problem by killing the grass with cardboard and fill dirt. This could begin in May and be immediately sowed with a cover crop of clover, black eye susan, and daisies for the summer. If the project isn't able to be started in May, she could sow it in the fall.

To maintain a lower height, mowing the area in the springtime once a year would suffice.

Raised Beds

Six to twelve raised beds on the north half of the site between the Red House and the library parking lot. The beds could be used in two ways:

1. Growing flowers, herbs, or vegetables for the public to pick from, especially children during library story time. Donations would be accepted to help offset any costs.

2. Leasing a bed similar to the Dr. John Wilson Community Gardens for growers to grow their own food with a sign requesting the public not pick from them. These beds would be leased for a small fee to help offset any costs.

Currently there are twelve unused raised beds sitting at the Carver Center looking for a new home: four 4x8 wooden beds, four 2x8 wooden beds, and four 2x12 metal beds.
We propose starting with eight beds in the first year:
When more beds are needed and the brambles have been cleared, we could include all twelve beds:
Following are pictures of the current beds at the Carver Center that we would be using (the metal ones are 2’x12’, the wooden ones are 4’x8’ and 2’x8’):
Ground Bed

A flower bed providing a colorful barrier between children story time and offering cut flowers for the library desk on the south half of the site.
**Water**

Use the water spigot at the library and watering cans.

Growers needing water would need to have a librarian (Laura has volunteered to help with this) unlock the spigot.

**Tools**

Growers would be responsible for bringing their own tools or a small secure outdoor storage box could be added to the west side of the existing shed to house hand tools and watering cans.

**MANAGEMENT**

Jessie and Kris would manage the raised beds and their growers for the first year.

Laura, Jessie, and Judd would work on the ground bed.

Emily would be in charge of the parking oval pollinator bed.

Laura would help with water as needed since she is at the library most of the week.

Diana from Dr. John Wilson Community Garden would let gardeners on the wait list know about this site and would submit an order to Public Services to move the raised beds to the site.
COST

**Pollinator Bed** - Covered under the Recreation and Park budget
$0

**Raised Beds** - Moving and any fixing to raised beds is covered under the Public Works budget
Compost or compost/soil mix will be needed to top off beds
This could be free from Root Cause Farm/Community Garden or growers may get their own compost for beds they use
A cost would be incurred if compost was picked up from a service, such as Danny’s Dumpsters
$0-$200 for compost first year
$0-$50 for compost once a year after first year

**Ground Bed** - $0

**Water** - Estimated range of monthly water usage, 0120 gallons
$0-5/month

**Tools** - Provided by growers
Optionally a secure outdoor storage box for tools and watering cans
$0-200
